\* Please note numbers are as reported, but since Statscan rounds up or down, there is some variation between total of age ranges and Total given.

In 2011, 16.4% of the population in the City of Quesnel was >65 with a significant increase also in the 60-64 age range (from 475 to 660). Obviously, **by the time a Multicentre is built, these people will be paying a lower rate of taxation.** The same trend is visible in all areas of the Regional District.

**It is important to remember that some Regional District residents will live outside of the Recreation Taxation area.**
